Dear Al,

Thanks for your **excellent reports and outstanding work** overall. **I hope we find more occasions on which to work together.**

Let's talk, probably in July, when you have received a response from Lumina.

Sincerely,

Jesse

Subject: Closure Report on VCC Planning Grant

Re: Closure Report on VCC Planning Grant

Hello Jesse,

I am attaching the closing budget in response to the call I received from one of your associates at the Sloan Foundation. She told I could do it before the End of June, so here it is. I cannot thank you enough for the tremendous catapulting effect received by the project when Sloan awarded the grant to CCSN.

In closing, I kindly invite you to advertise our website among those who want any kind of information about the project. Information can also be obtained by sending requests to info@thevirtual.cc. Most of the Virtu@l CC news and documentation will be posted on the website including those related to deliverables and research created from the Sloan planning grant and from other different sources. We want to thank you and the Sloan Foundation once again for the support received, recognizing how important the Sloan grant has been for the start up of the project.

Sincerely

Dr. Al Valbuena
VCC Project Director
Community College of Southern Nevada
